

Email Basics

Introduction

Email (Electronic Mail) is one of the most common ways of communication on the Internet.

It is used for sending messages, documents, images, and other files quickly from one person to another.

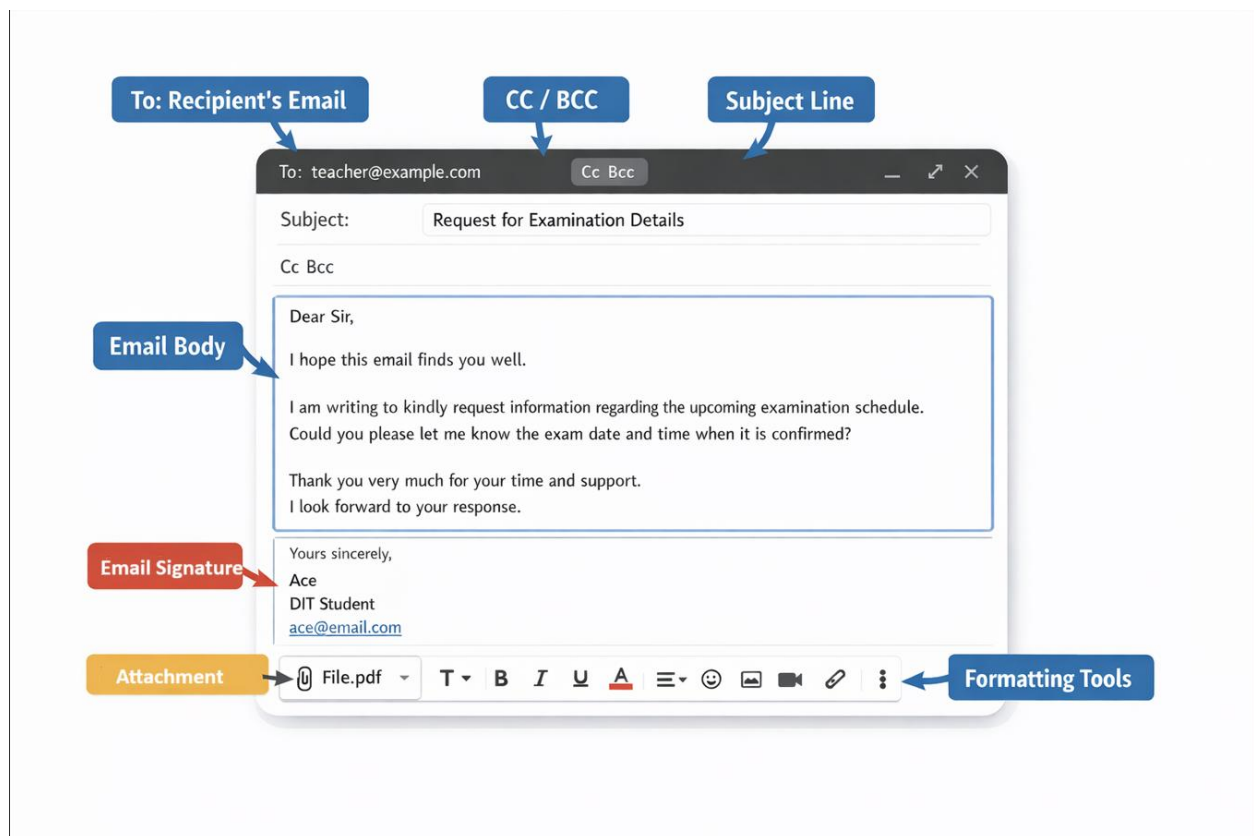

What is Email?

Email is a digital message sent over the Internet. To use email, a user must have an email

address such as example@gmail.com

Parts of an Email

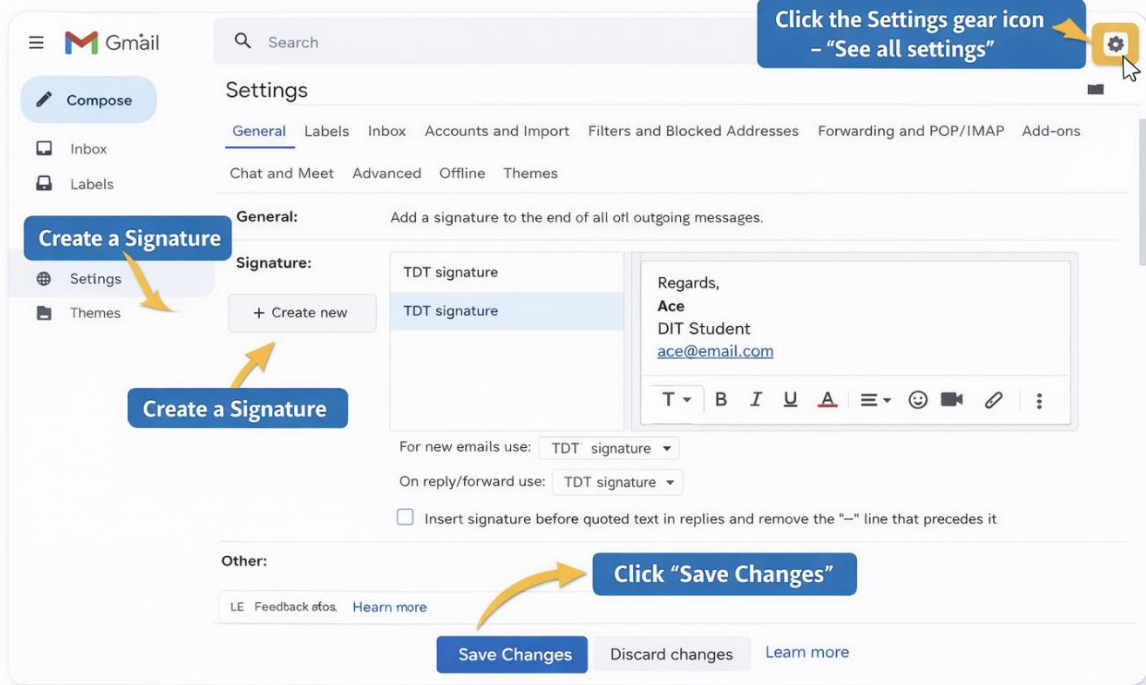

- 1 To – Receiver's email address
- 2 CC – Carbon Copy (optional)
- 3 BCC – Blind Carbon Copy (optional)
- 4 Subject – Short title of the email
- 5 Message Body – Main content of the email
- 6 Attachments – Files added to the email
- 7 Signature – Sender's name and contact details

How to Write a Proper Email

- 1 Use a clear and meaningful subject.
- 2 Start with a polite greeting (Dear, Hello).
- 3 Write the message clearly and briefly.
- 4 Avoid spelling and grammar mistakes.
- 5 End politely (Thank you, Regards).
- 6 Add an email signature.

How to Add an Email Signature in Gmail

Email Do's and Don'ts

- 1 Do check the recipient before sending.
- 2 Do keep the email professional.
- 3 Don't use unnecessary capital letters.
- 4 Don't send personal emails in professional situations.
